TABLE TENNIS BATS

1. All bats shall have one black and one red rubber.

THE SERVICE RULE

1. Service shall start with the ball resting freely on the open palm of the server's stationary free hand. The server shall then project the ball near vertically upwards without imparting spin, so that it rises at least 16cm after leaving the palm of the free hand and then falls without touching anything before being struck. As the ball is falling the server shall strike it so that it touches first the server's court and then, after passing over or around the net assembly, the receiver's court - in doubles, the ball shall touch successively the right half court of server and receiver.

From the start of service until it is struck, the ball shall be above the level of the playing surface and behind the server's end line, and it shall not be hidden from the receiver and umpire by any part of the body or clothing of the server or his/her doubles partner.

It is the responsibility of the player to serve so that the umpire can see that they comply with the requirements for a good service, which is an "OPEN" technique fully visible to both the receiver and umpire.

THE ORDER OF SERVING, RECEIVING AND ENDS

1. In the first game it is the only time the receivers have the choice of order as to who will receive the service.
2. After each 2 points have been scored the receiving player or pair shall become the serving player or pair and so on until the end of the game, unless both players or pairs score 10 points.
3. The player or pair serving first in a game shall receive first in the next game of the match, and in the last possible game of a doubles match the pair due to receive next shall change their order of receiving when first one pair scores 5 points.
4. The player or pair starting at one end in a game shall start at the other end in the next game of the match and in the last possible game of a match the players or pairs shall change ends when first one player or pair scores 5 points.
